

MYSUSTAINABLEFOREST INSIGHT SERIES #1

FORESTRY CHALLENGES AND EARTH OBSERVATION-BASED SOLUTIONS - A DYNAMIC DISCUSSION BETWEEN USERS AND PROVIDERS

ONLINE WEBINAR, 1 JULY 2020

MySustainableForest project invites you to the presentation of the portfolio of products for sustainable forest management. This European project aims to further integrate Earth observation products into the forestry sector, demonstrating the advantage of incorporating remote sensing information into the decision making, protocols and daily operations of the different actors involved in the silvicultural chain.

On July 1st, the consortium is organizing an open virtual event where attendees will have the opportunity to:

- Discover the products based on satellite, LiDAR, sonic and statistical data developed within the project.
- Learn from six European forest stakeholders about key forestry challenges and their solutions using remote-sensing technologies.
- Participate and dialogue with pair stakeholders (FOAL, CNPF, RAIZ, CFRI, UFE, FORESNA) and solution providers (GMV, FÖRA, MADERA+, EFI) from MySustainableForest project.

WEBINAR DETAILS

- **Date:** 1 July 2020
- **Time (CET) 11:00-12:30**, Total Length: 1.5 hours approximately
- **Language:** English
- **Location:** Microsoft Teams – Details will be provided at a later stage
- **Registration Deadline:** June 30, 2020

REGISTRATION

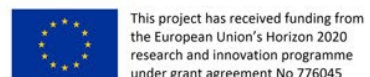

If you are interested in participating in this virtual event, please register in our online form by clicking the following link: <https://mysustainableforestmsf.typeform.com/to/Y2AhXxyA>

ADDITIONAL INFORMATION

The recording of the webinar and presentations will be uploaded into the [MySustainableForest website](#).

- **Any questions?** Contact us at info@mysustainableforest.com
- Follow us on <https://twitter.com/mysustforest>

MySustainableForest project is funded by the EU Commission H2020 framework programme for the period November 2017 to October 2020 under grant agreement No 776045.

WEBINAR AGENDA

Time	Topic	Speaker
11:00-11:10	Opening and Welcome Setting the scene. Data types in context: satellite, LiDAR, sonic sensors and statistical data MySustainableForest commercial solutions: product request and platform Mention next Webinar (September)	Julia Yagüe (GMV)
11:10-11:25	Forest Site Characterization	Moderator: Beatriz Revilla-Romero (GMV)
3min	Challenge # 1: High quality data needs for sustainable forest management	Margarida Mendez, (RAIZ)
10min	LiDAR Solutions	Iñigo Lizarralde (FÖRA)
3min	Challenge # 2: LiDAR datasets to improved frequency of Forest Inventories	Alfredas Galaune (FOAL)
11:25-11:40	Forest Vitality and Ecosystems Conservation	Moderator: Julia Yagüe
3min	Challenge # 3: Satellite-based forest products for biotic emergencies	Zdenek Patočka (UFE)
10min	Satellite Solutions	Ángel Fernández (GMV)
3min	Challenge # 4: Forest dieback from abiotic damage	Benjamin Chapelet, (CNPF)
11:40-11:55	Wood Quality Assessment	Moderator: Beatriz Revilla-Romero
5min	Challenge # 5: Identifying wood quality towards better revenues	Ivan Pilas (CFRI)
10min	Wood Characterization Solutions: Sonic and satellite data	Esther Merlo (MADERA+)
11:55-12:10	Forestry Accounting	Moderator: Julia Yagüe
5min	Challenge # 6: Forest Account and EU Green Deal	Eduardo Montero, (FORESNA)
10min	Forestry Accounting Solutions	Elena Górriz Mifsud (EFIMED / CTFC)
12:10-12:30	Q&A	
12:30	Closure of the event	Julia Yagüe
